

Unity™ Glider

Refresh your room with our new furniture line.

Our modern and durable Glider offers a smooth, low-range rocking motion to help users relax. Its uniquely curved armrests remain stationary, helping users get in and out of the chair safely. The Glider's curved backrest provides significant comfort and support when rocking or winding down. Its center gliding action eliminates the need for a locking mechanism – helping to reduce accidents and injuries to both users and caregivers. The Glider's seats are standard in high density Ultracell foam with seamless waterfall front edges. Modern and durable, the Glider features self-skinned urethane (SSU) armcap finishes that are nonporous, easily cleanable and available in a variety of colors.

Focused on cleanability to help support infection control*

- Optional sealed seams
- Clean out space around seat cushions for easy housekeeping
- SSU armcaps are cleanable and nonporous
- No Velcro on seat or back
- Cleanable with 100:1 bleach solution and Stryker's SideKick disinfectant cleaner
