

Unity™ Side Seating

Refresh your room with our new furniture line.

Our selection of modern and durable Side Seating was developed to meet the needs of the most demanding environments and the intensive cleaning procedures associated with today's infection control requirements. The series includes individual chairs for patient rooms and specialty requirements such as bariatric seating and flex back chairs. Each features an easily cleanable nonporous frame constructed with a reinforced steel frame that incorporates a welded crossbar to connect the leg and arm uprights for exceptional strength and durability. Seat and the back cushions are fitted with high density Ultracell foam for long life and superior comfort.

Focused on cleanability to assist with infection prevention*

- Optional sealed seams help reduce the opportunity for contamination from fluid
- Full 360° clean out with 0.5 in (13 mm) wide gap between seat and back
- Self-skinned urethane (SSU) armcaps are cleanable and nonporous
- No Velcro on seat or back
- Cleanable with 100:1 bleach solution and Stryker's SideKick disinfectant cleaner

*For proper cleaning practices, the textile selection needs to be identified. It is vital to follow the chemical manufacturer's guidelines for cleaning a clear water wipe down occur to avoid chemical build up that will lead to deterioration of the textile. Contact Global should information on using a specific disinfectant be required.

Specifications

Single Seat Chairs

3500-000-501 (502, 503, 504, 511, 512, 513)

Overall Depth

All 28 in / 711 mm
