

Working with Voice Reminders and the Vocera Collaboration Suite App (Vocera Server 5.2 Upgrade)

Course Description

Welcome to Vocera Reminders training! Voice Reminders allow you to record your voice and send the recording as a reminder to yourself or others to take action. This 10-minute eLearning course will familiarize you with Voice Reminders, a feature that was introduced with Voice Server 5.2.

Requirements

This course is designed for customers who had a previous version of Voice Server and are upgrading to Voice Server 5.2 or higher.

Learners taking this course should be familiar with the basic voice features of the Vocera Collaboration Suite App. The training contains audio and is best viewed on a monitor, laptop, or tablet.

Learning Objectives:

By the end of the course, you should be able to:

- Describe what a voice reminder is
- Describe the benefits that voice reminders provide
- Demonstrate how to record a voice reminder for yourself
- Demonstrate how to record a voice reminder for a colleague or colleagues
- Explain how to receive a voice reminder
