# **LIFEPAK® 35**

monitor/defibrillator

**Intuitive.  
Clinically advanced.  
LIFEPAK TOUGH.**

When every second matters, you need an easy-to-use monitor/defibrillator<sup>1</sup> designed for today's healthcare professional.

Built on a legacy of trust.  
**Ready for the future.**

For decades, we've developed technology and devices that healthcare workers like you reach for. Our hard-earned reputation includes attention to detail and performance that goes above and beyond.

Developing ground-breaking products takes time – but the results are worth it. Every step of our process was inspired by your commitment as we addressed your needs with the goal of surpassing your expectations. This latest device may be different, both inside and out, but the focus remains the same: to help save lives.

Introducing the **LIFEPAK 35**

The LIFEPAK 35 is a clinically advanced monitor/defibrillator with proprietary tools and technology built on an intuitive,<sup>1</sup> modern platform for advanced patient care. It's a future-ready device designed to promote confident cardiac care<sup>2</sup> and enable clinical excellence in today's modern healthcare environment.

**Intuitive**  
Slim, lightweight and ergonomically designed, LIFEPAK 35's large, easy-to-use touchscreen<sup>1</sup> and advanced clinical decision support tools provide a customisable clinical experience that helps reduce cognitive burden.<sup>1</sup>

**Clinically advanced**  
When every second matters, you need patient care that moves as fast as you do. With advanced connected capabilities providing insights and guidance, LIFEPAK 35 is reliably on your side – when time is not.

**LIFEPAK TOUGH**  
Built on a legacy of life-saving products and reimagined for today's healthcare professional, the LIFEPAK 35 platform carries a foundation of trust and toughness that you can count on.

# Advancing patient care now and **into the future**

Working in partnership with customers like you, we’ve designed a device to help give you more control during critical events. The LIFEPAK 35 emergency response monitor/defibrillator balances advanced clinical technologies and ease-of-use<sup>1,2</sup> in a device that you can rely on in challenging situations.<sup>3</sup>

Built-in documentation tools can help reduce time to treatment and calculation errors.<sup>2</sup>

cprINSIGHT<sup>®</sup> helps improve CPR performance in AED mode by reducing pauses\* during chest compressions.<sup>5</sup>

The medications and treatment events lists can be customised in the Setup Options to include up to 40 events each.<sup>2,7</sup>

The LIFEPAK 35 helps streamline patient care and reduce the cognitive burden of the care team.<sup>1</sup>

Front-facing, right-angle cable ports enable easy access to monitoring accessories.<sup>2</sup>

## A big, tough touchscreen

The high-definition, 10.4” touchscreen enables a customisable display of our next-generation capabilities. The durable, chemically reinforced glass<sup>3</sup> is double glove-friendly and is designed to withstand both direct impacts and drops.<sup>2</sup> You can view up to 12 monitoring parameters at once while also sorting and renaming leads.<sup>3</sup>

Help treat patients of all ages with escalating biphasic energy from 1J-360J and adult and pediatric AED mode<sup>1,6</sup>

Streamline workflow by transmitting data for analysis via built-in Wi-Fi or Bluetooth.<sup>2</sup>

Code/Real-time clock allows a caregiver to switch between real-time and elapsed time during an event.<sup>2</sup>

The intuitive user interface is easy to use and requires minimal training.<sup>1\*\*</sup>

Live view 12/15-lead with STJ Insight<sup>™</sup> provides a graphical representation of the ECG to help diagnose myocardial injury.<sup>2</sup>

FLEX lithium-ion dual battery system allows for nine hours of monitoring.<sup>4</sup>

The integrated kickstand provides additional stability and allows for optimal viewing on the crash cart.<sup>1</sup>

\* Pre-shock pauses were reduced to an average of 8 seconds vs. an average of 22 seconds with the conventional AED. CCF with cprINSIGHT was 86 percent vs. 80 percent in the conventional AED group.

\*\* Based on participants surveyed.

Advanced technology promotes **clarity and confidence**

Focus on patient care with our clinically advanced therapy tools

**cprINSIGHT<sup>3</sup>**  
LIFEPAK 35 is the only professional monitor/defibrillator with an algorithm that identifies a shockable rhythm without pausing CPR.<sup>5\*</sup>

**On-screen abbreviated instructions**  
Provide guidance for non-invasive pacing and synchronized cardioversion.<sup>2</sup>

**Post-sync decision menu**  
LIFEPAK 35 is designed with patient safety in mind. When performing synchronized cardioversion, a mode selection menu is displayed on screen automatically after each shock, prompting the clinician to consider the patient's needs.<sup>2</sup>

\*As of October 2024.

Streamline your **workflow**

By focusing on your needs within the hospital protocols and communication channels, we empower you to excel in a high-stakes environment. The LIFEPAK 35 streamlines the care process by capturing important clinical data and events in the patient record and provides custom-timed reminders for medications and therapies, which may assist in patient care.<sup>1,2</sup>

Stay connected with **LIFENET<sup>3</sup> digital healthcare solutions<sup>8</sup>**

**Stay ready with LIFENET Asset**

Remotely manage your devices, receive status alerts and view static/dynamic device location.<sup>9</sup>

**Respond effectively with LIFENET Care**

Drive better care by transmitting, sharing and capturing patient data to enhance team communication and coordination.<sup>8</sup>

**Review quickly with CODE-STAT<sup>TM</sup>**

Automatically access or share data, review performance and identify improvement opportunities.<sup>9</sup>

**LIFEPAK 35** is ergonomically designed for portability and built **LIFEPAK TOUGH<sup>TM</sup>** to withstand drops and falls within the demanding hospital environment.<sup>3</sup>

# A legacy of trust

For six decades, we've partnered with our customers to design solutions and develop technology that help save lives. You'll find more than half a million units in use today on ambulances, and hospital crash carts worldwide.<sup>10</sup> Our uncompromising commitment to quality produces devices you can count on in critical situations – so you can focus on what you do best: saving lives in the community, the field and the hospital.
