FLUID MANAGEMENT

The standard in creating
a dry and efficient surgical
environment

Stryker

YOUR TOTAL WASTE MANAGEMENT SOLUTION

▶ What solution fits your hospital's needs?

▶ **Stryker QuickWick™ Mats**

▶ **Stryker Suction Mats**

▶ **Stryker Suction Ring**

▶ Staff Satisfaction

- Maintaining a dry surgical environment leads to increased staff satisfaction
- Quiet wicking action reduces unwanted noise in the operating theatre
- Green Solution – QuickWick Mats are made from up to 60% recycled materials
- High level of service from Stryker Instrument Sales Representative

▶ Performance

- Higher fluid capacity when used with the Neptune Waste Management System when compared to canisters
- QuickWick Mats are made with super absorbent materials, allowing the mats to hold 14 times their weight in fluid
- Stryker suction products offer a quiet solution that removes fluid in an efficient and effective manner

▶ Safety

- Stryker suction products help keep operating theatre floors clean and dry for staff traffic
- Towels and blankets quickly become heavy and saturated with potentially infectious fluid waste, evacuating this fluid reduces disposal costs and the amount of staff exposure
- Stryker QuickWick Mats are made with super absorbent material that locks fluid in

▶ Efficiency

- Proactively removing fluid from the operating theatre enables faster turnover time
- Multiple suction pores reduce possibility of clogging, minimising staff time devoted to product maintenance, allowing more time to focus on patient care
- Simple and intuitive design allows for easy set up and disposal
- Pliable material allows for easy maneuverability and repositioning of mats

Stryker

YOUR TOTAL WASTE MANAGEMENT SOLUTION

▶ Stryker QuickWick™ Mats

- Super absorbent material locks in 14 times its weight in fluid
- Green solution – made from up to 60% recycled materials
- Robust absorbent material does not become slippery when wet
- Wide variety of mat options create a customised solution for every OT need:
 - QuickWick Mats offered with plastic backing provide a barrier, reducing the risk of fluid escaping during disposal
 - QuickWick Mats offered with tape further secure mats to the OT floor, minimising the amount of movement
 - QuickWick Multi-Purpose Mat is durable, making it ideal for high traffic areas

▶ Stryker Suction Mats

- High suction flow rate quickly evacuates fluid from the OT
- Permeable non-slip top layer prevents fluid from pooling on the surface, keeping feet dry
- Comfort mat may reduce surgeon fatigue from standing on hard OT floors for long periods of time
- Towels and blankets quickly become heavy and saturated with potentially infectious fluid waste, evacuating this fluid reduces disposal costs and the amount of staff exposure
- Quiet wicking action reduces unwanted noise in the OT

▶ Stryker Suction Ring

- High suction flow rate quickly evacuates fluid from the OT
- Quiet wicking action reduces unwanted noise in the OT
- Towels and blankets quickly become heavy and saturated with potentially infectious fluid waste, evacuating this fluid reduces disposal costs and the amount of staff exposure
- Pliable material allows for easy maneuverability and repositioning of device
- Hundreds of suction pores reduce the amount of device clogging or suctioning to the floor, decreasing product maintenance time
